THE AMERICAN

STOVE PIPE DAMPER.

Pat. March 23, 1875, and March 15, 1877.

OBSERVE the manner in which the spindle and plate are held together.

A slight pressure forward on the spindle, followed by a turn of the same, will separate the two pieces.

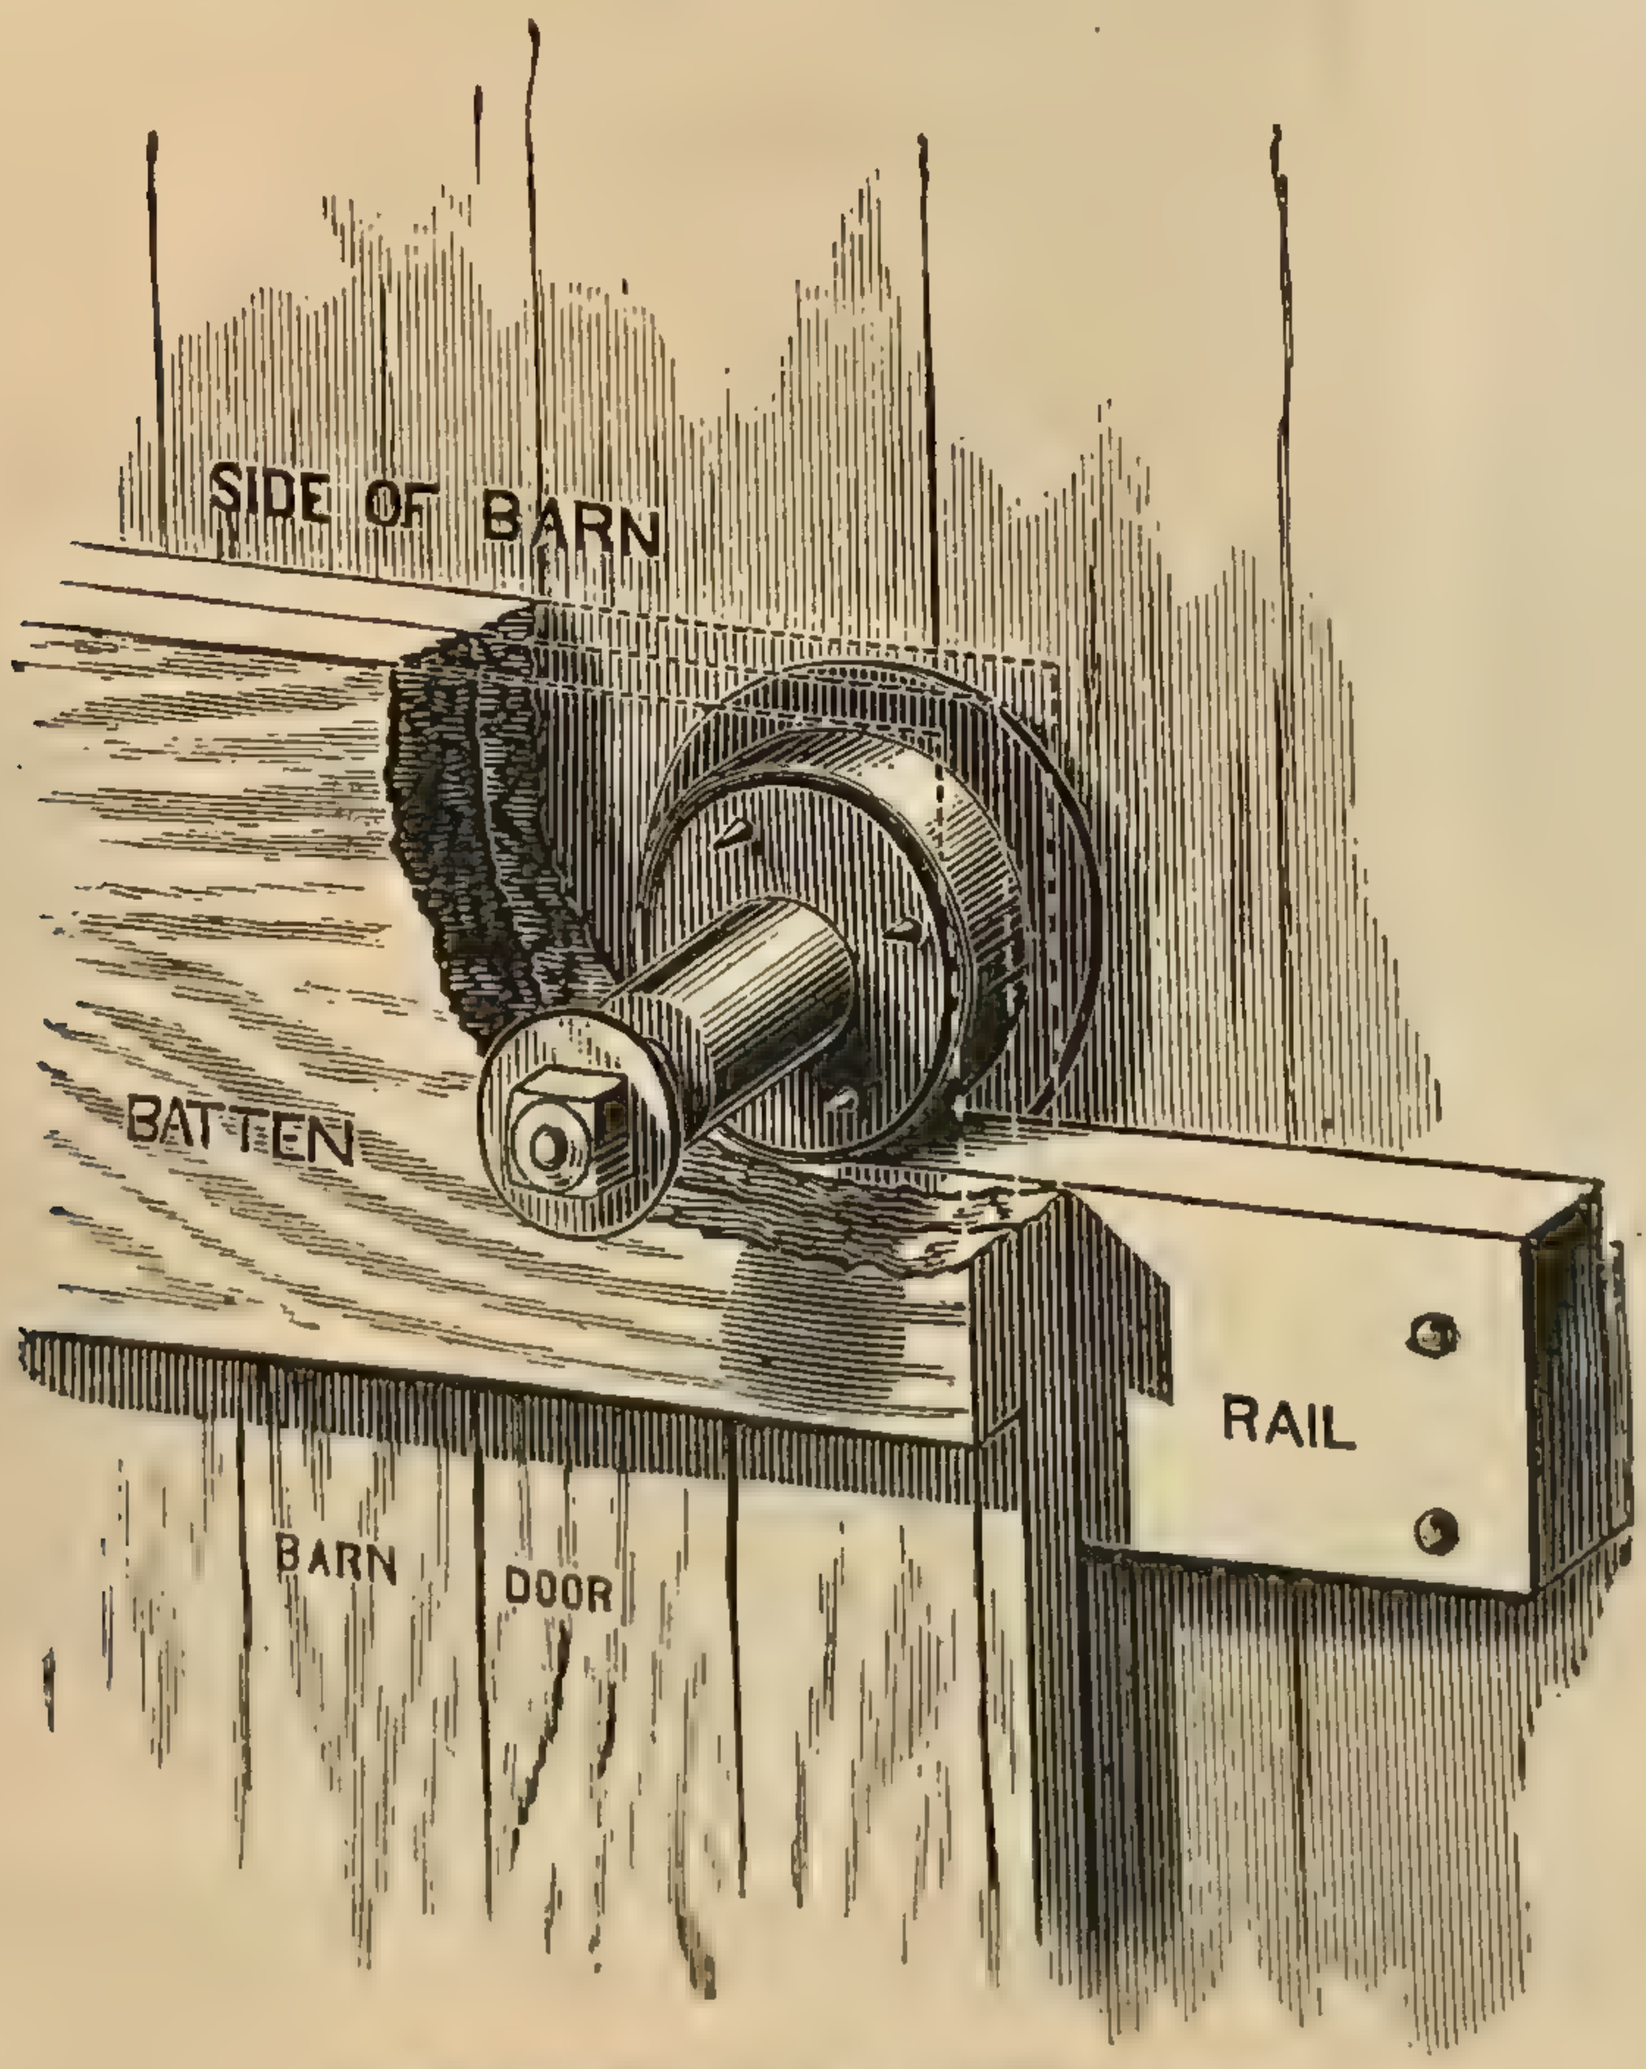
"THE AMERICAN."

A New Departure in Barn Door Hangers.



PATENT APPLIED FOR.

No slim neck to break or screws to get loose. Easily attached, fastened with one bolt and that furnished. Fitted for a wooden track, and, being all on inside of door, is protected from the weather.

In *making* door put *top batten* on *outside*, stop space between door and barn with narrow upright strips on *inside edge of door*.

In *hanging* door *fur out track* with *small pieces* leaving space for dirt to escape.

Such is the "American," the cheapest, best and strongest Hanger in the market.

LIST.

4 Inch..... *$12.00 per Dozen.*
